The OG Web Solutions businessmodel engages the clients in accordance with their business requirements and the project at hand.

FIXED PRICE-FIXED TIME MODEL

When the client has a clear scope of project inmind our business analysts and project managers work with the client to define specific deliverables and timelines which are then converted to a mutually agree price for the project.

HOURLY RATE MODEL

At times the client has an idea which needs to be developed into a project, this is where our hourly rate project model come handy. Also, when the client application needs minor enhancements over time they prefer this model.

DEDICATED TEAMS MODEL

High turnover applications and turnkey projects deserve a dedicated team working towards its development and maintenance. This model provides for a dedicated team of experts working only on the one project continuously.
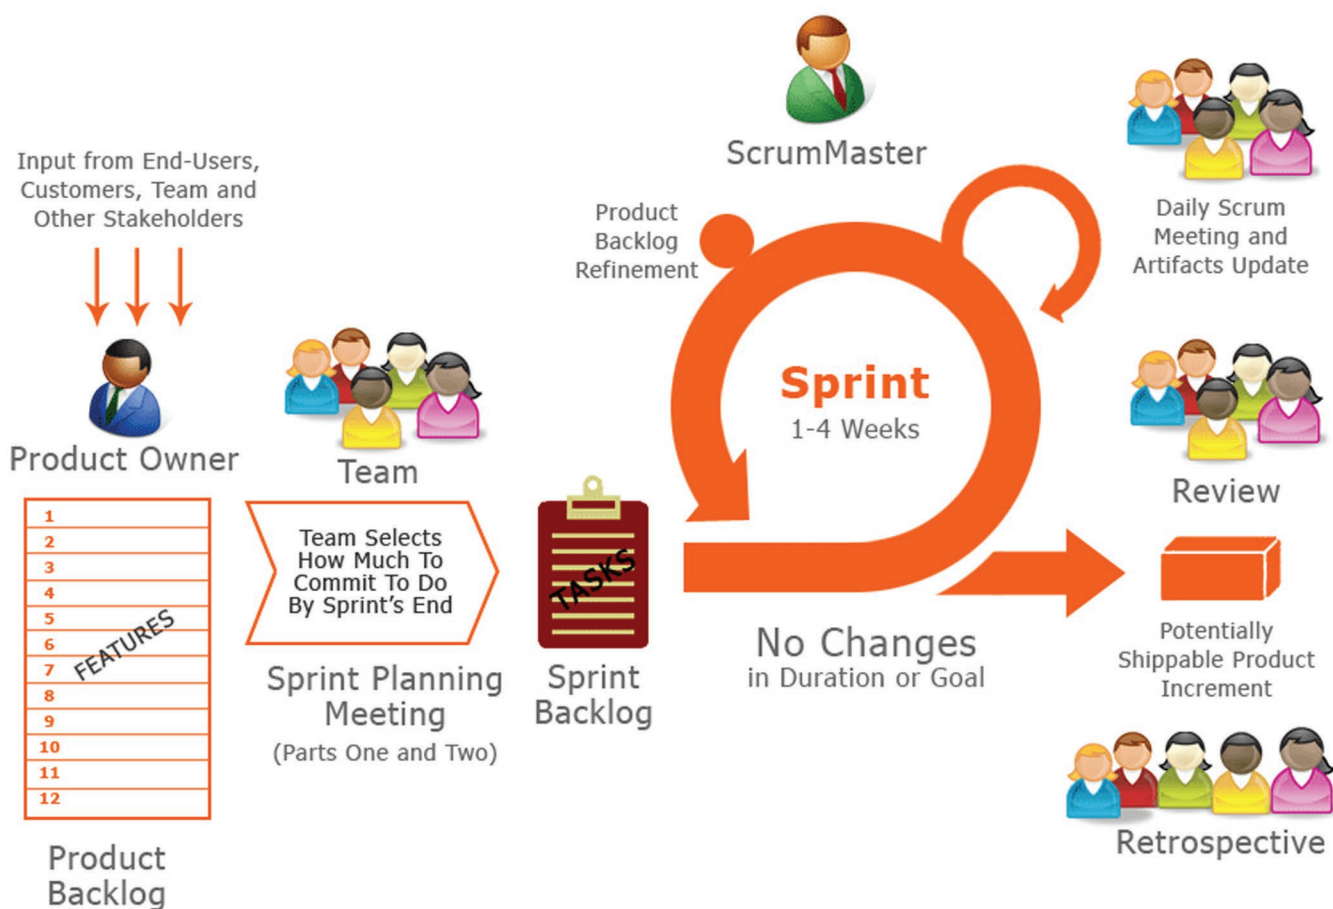

MAINTENANCE MODEL

Our maintenance model allows you to benefit from our services at a cost up to almost 50% of our regular service charges. This is the perfect investment in your website instantly giving your returns. Buy hours in advance from us and get your work done as and when you require it.

Agile development model is based on the belief that every project needs to be handled uniquely and the existing methods need to be tailored to best suit the project requirements. In agile the tasks are divided to time boxes (small time frames) to deliver specific features for a release.

OUR CLIENTS LOVE US

" *Really nice and smooth project management. Amazing experience of working with a team of professionals and experts who clearly strategize the project understanding my needs and direction. Outstanding job guys!!*

- ROHIT AGGARWAL

" *I really appreciate your skills and command over subject. This is my second project with OG Web and the team has never failed on quality and deadlines. The custom WordPress theme came out so well. Thanks again for your great work.*

- MICHAEL HOLLERAN

" *I know most of the time I'm emailing you with issues, fixes and projects, but I just wanted to drop you a quick note (and please feel free to pass this along to your team)...As I just finished up adding a video to the gallery and editing some content, it occurred to me how much faster the process is now compare to the old website because of the great work of your team and their thoughtful selections of plugins and navigation for the backend of the website. Although we get a lot of accolades for the front of the website, the backend is equally impressive. Kudos on some great work.*
